Message from the CEO

It has been over 60 years since the establishment of our business, and Nakajima Glass Co., Inc. will not be what we are today, without the warm support of our customers as well as of all the staff members, past and present, who have contributed their services towards the growth and success. I would like to take this opportunity to express my sincere gratitude and appreciation.

With time, demands for functions from glazing products continue to enhance. Nakajima Glass Co., Inc. contributes to the society through provision of high functional glazings, and without hesitation, this is the company's management philosophy today.

With "functional glass" as our core product, Nakajima Glass Co., Inc. continue to pursue customer needs and satisfactions in higher-performance and higher value-added products.

And through such activities as TQC and company-wide total quality commitment, we continue to make every effort to study and to stride forward in order to improve productivity.

By committing enthusiasm and insight as the corporate climate which this time and age demands, Nakajima Glass Co., Inc will fulfill the social mission and its responsibility. And in order to accomplish superior achievement, we humbly ask once again, for your continual kind support.

Nakajima Glass Co., Inc.
Chief Executive Officer, Takeshi Yuki
